June 1, 2023

Dear Langdon, Indus and Chestermere area families,

Thank you for participating in the recent public consultations regarding the grade configuration and designated attendance boundaries for the new junior/senior high school in Langdon. We heard from many members of your community who shared valuable insight.

The Board of Trustees had originally planned on a June decision for the new school's grade configuration/attendance boundaries; however, after hearing your initial feedback we have decided to extend the timeline to provide more time to collect input and consider options. Part of the fall engagement will include at least one more in-person feedback session as well as another online opportunity. This is an important decision, and we want to ensure we have taken the time to thoughtfully consider options and your feedback.

The fall engagement plan and timeline will be shared with families in September through email. Please continue to visit RVSEngage for information, materials and updates on this consultation.

Thank you for your patience as we endeavour to incorporate feedback presented to the Board and administration through RVSEngage. In September, we will provide options for your consideration and continued feedback.

Sincerely,

Norma Lang
Board Chair
